IN PREPARATION - COMING SOON

Aviation professional development and awareness

Explore a broad catalogue for aviation learners, teams and partner organisations. The extended portfolio brings together subjects that can be combined into a learning path for a role or organisational objective.

Topics and objectives

- Safety management and risk awareness
- Human factors and fatigue
- Aviation English and communications
- Airport operations and ground handling
- Security culture, dangerous-goods awareness and cybersecurity
- Maintenance awareness, quality and compliance
- UAS, sustainability and instructional skills

What the pathway supports

- An overview of planned subjects
- A basis to discuss a suitable pathway
- Current information before enrolment

Who is it for?

Learners and professionals interested in this area; prerequisites and entry pathway to be defined.

Our approach

1. Define needs and the starting point.
2. Build suitable learning or work activities.
3. Review progress and organise next steps.

Scope and arrangements

The extended catalogue is in preparation; existing available courses are shown separately in the course listing. These are non-licensing professional-development and awareness topics. Confirm current availability and the scope of any organisation-specific training before enrolling.

View the online listing and request current arrangements

Let’s discuss your project
