Quality Audits

Understand your practices, identify gaps and prioritise improvements.

Service scope

- Internal quality audits against an agreed framework
- Document review and preparation of an audit plan
- Interviews and review of available evidence
- Identification of findings and improvement opportunities
- Corrective-action planning and follow-up support

Possible outputs

- Audit plan and agreed criteria
- Report with evidence-based findings
- Corrective-action tracking support

Who is it for?

Businesses, institutions, associations and teams in aviation and other sectors.

Our approach

1. Initial discussion and priority setting.
2. Proposal: scope, deliverables and timetable.
3. Delivery, review and handover of outputs.

Scope and arrangements

The audit scope, criteria, sites and evidence requirements are agreed in advance. Findings are distinguished from recommendations so that your team can decide and track appropriate actions. An internal audit is not a certification or an authority approval.
